Excellent Resource for Audits & Other Disputes!
Here is what users are saying about RBRVS EZ-Fees:

“EZ-Fees is simple, elegant, versatile and is comparable to products costing many thousands of dollars more! It is a “must” for anyone who works with Medicare fees or is engaged in fee schedule building or analysis. In one package all of the principal office based Medicare payment systems are at your fingertips. The data alone in EZ-Fees is worth the acquisition cost. Simply the best product of its kind in the market!”

Douglas C. Anderson,
MarketGuild,
New York, New York

“I just wanted to take a minute to tell you how much I love your product. I use it to prepare fee schedules so that I can double check to see that the insurance companies are paying me properly. I had looked at other products, but they either didn’t do what I wanted or they did lots more than I needed, and were therefore, much more expensive than RBRVS EZ-Fees. I wish I would have known about this product years ago. It is perfect for the physician office administrator looking to make fee schedule preparation easier for a reasonable cost. Thanks for a great product at an affordable price.”
